Easy Contracts Testimonial from the Comrades Marathon Association

The Comrades Marathon is a world-renowned event that relies on the passion and dedication of thousands of volunteers to ensure its success. Managing the administrative requirements for such a large group can be demanding, and any solution that helps ease the burden is always a welcome addition.

For the first time in 2025, the Comrades Marathon made use of a tailored Easy Contracts online indemnity form to help ensure safety and compliance. The platform was simple, secure and most importantly user-friendly, allowing our volunteers to complete the online forms quickly and efficiently.

The single issue experienced was reported to and dealt with swiftly by the Easy Contracts support team.

In the end using their digital indemnity form helped us save valuable time and resources, allowing our team to focus less on paperwork and more on delivering a safe and seamless race experience.

We're grateful for their support and highly recommend their platform to any organization looking to modernize their legal administrative processes.
